

The Ultimate Guide to Your Educational-Leave in **Lanzarote**

"Relaxation & Learning - can they go
hand in hand?"

Bienvenido a Lanzarote

"A place to enjoy, learn, dream, reflect, taste, feel,
discover, meditate, surf, walk, breathe, dive, grow,
embrace... and above all,
a place to speak Spanish!"

Lanzarote

Why Lanzarote? The Top 7 Reasons

Immersive Language Environment. In Lanzarote, you don't just learn Spanish in the classroom, but everywhere. While shopping, chatting with locals, or during an excursion – the language surrounds you at every moment. Learning becomes a lively, natural experience.

Authentic Culture. The island offers encounters with a culture rich in tradition, flavor, and warmth. Whether cooking together, visiting a market, or at a local winery – you immerse yourself deeply in real Canarian life. Each experience opens a new window to the language.

Picturesque Landscape. Lanzarote is a place that touches the soul: black lava fields, endless beaches, and bright white villages contrasting with the deep blue Atlantic. Every view is a picture, every hike a discovery. Here, nature and inspiration come together.

Small Groups for Effectiveness. Learning in small groups means personal attention and rapid progress. You are at the center, your voice matters, and your questions are given space. In this intensive yet relaxed atmosphere, your Spanish grows day by day.

Motivating Atmosphere. With us, learning is not an obligation but a joy. A positive and motivating environment gives you confidence, sparks curiosity, and encourages you to speak freely. Each course day begins with energy – and ends with a smile.

Combination of Lessons & Leisure. Morning classes blend harmoniously with leisure and discoveries in the afternoon. Whether it's a cooking class, a wine tasting, or an excursion into nature – each activity enhances your language skills. This way, learning Spanish becomes a holistic experience.

Year-Round Mild Climate. Lanzarote spoils you all year round with a climate that feels like eternal spring. Sun, warmth, and the fresh Atlantic breeze create ideal conditions for learning and relaxing. Here, both body and mind feel completely at ease.

Benefits & Recognition

Benefits

- Educational leave: personal and professional development
- Learning without having to give up relaxation
- Spanish on-site in Lanzarote or online from home
- Officially recognized formats with intensive language practice

Recognition

- Practical exercises for rapid progress

Process & Methodology

Process

- Placement test before the course (on-site & online) to determine the level
- Clearly structured course start with objectives, materials, and schedule
- Lessons in defined units with weekly learning goals
- Regular feedback and short progress checks
- Completion with a certificate of participation including specified language level

Methodology

- Communicative approach with role plays and everyday situations
- Practice-oriented tasks for direct application
- Small groups and personal support for focused learning
- Online with LearnCube: virtual whiteboard, breakout rooms, real-time interaction
- Individual differentiation according to level and needs

Application Process

Process

Educational leave begins with choosing the right course at Co Co Lingua. We provide you with all the official documents required for the application, which you then submit to your employer – ideally six to eight weeks before the course starts. Since our courses are state-recognized, the application is approved in most cases without any problems.

Support

If any questions arise during the application process, we are of course at your side. We provide personal guidance to ensure smooth organization. This way, you can fully focus on what really matters: learning Spanish and enjoying the experience.

Testimonials

"I recently had the pleasure of taking part in an online course at Co Co Lingua. Although I was initially skeptical and usually prefer in-person classes, I was truly impressed by this online course. The technology worked perfectly. The lessons were varied and included videos and audio materials. Our teacher Eduardo taught us grammar in a well-structured way - especially the past tenses - using wonderful 'memory aids,' and ensured through many exercises that we could review and consolidate what we had learned. I finally gained a real understanding of how to use Indefinido and Imperfecto. The classes took place in a relaxed and cheerful atmosphere. Muchas gracias."
Heike Trapp - July 2025

"I took part in an online language course and was thoroughly impressed. The course (5-day intensive) was excellently organized, very professionally structured, and did not lose any quality - even though it was not held in person. On the contrary: the content was clearly structured, everything ran smoothly from a technical point of view, and nothing was missing. I would especially like to highlight the teacher: extremely professional, friendly, and dedicated. He genuinely cared about each participant and made the lessons lively and motivating. A truly successful course - absolutely recommendable! Many thanks - J.S. - July 2025."

En Canarias decimos...

guagua(autobús), cholas(chancas), pelete(mucho frío), calufa (calor o calima), chacho (muchacho), ¡ños!, mi niño/a...
